### Quality and processing Management system

Toolstyle is MSZ EN ISO 9001:2009. certified since 2001 by the hungarian organisation CERTOP. The company also received in 2004 the General Electric supplier award for excellence in growth. Toolstyle uses the same tool than in France for production management, and implements same values of quality and on-time deliveries.

Certified by  
TÜV Rheinland InterCert Ltd.  
according to the  
MSZ EN ISO 3834-2
